By some means unbeknown to the Chronicle the rumor was going the rounds that W. B. Allred, who now lives in Oklahoma and who is well known to many in this county as at one time having been sheriff of this county, had committed suicide by drowning. The rumor had it that he tied a rope around his neck and jumped into a river and left a note on the bank saying he would be found at the end of the rope tied to a tree. A letter just received by E. O. Hembree, brother of Mrs. Allred, states that the rumor is without foundation. Mr. Allred says he is going to stay on earth a long time, if he has anything to do with it. Many in this county will be glad to learn that the rumor is groundless.

OLD RESIDENT

Remembers When Deer Were More Numerous Than Rabbits Now.

Ozone, Tenn., April 18, 1915.
Editor Chronicle:—As I understand you want letters from the oldest people of this county, thought I would write you a few lines.

I was born about one and one-half miles south of what is now Ozone, but was then called the Cascade Waterfalls. I was born July 26, 1836 and have never lived anywhere else in my life. Was living here during the civil war, but was never a soldier, but acted as a pilot across this country to Kentucky. Was captured twice but was never in prison. One time I made my escape by taking a water bucket out of the hand of a man passing by with two buckets, and just walking along with him to the spring and was not noticed until I was gone.

My first acquaintances were old Billie Day, Claiborne Nance, Sam Day, Tom Spraggins, Henry King and a very few others.

Our nearest neighbor was one mile or more away, and there were no roads through here at all, only paths, and most of them hog and deer paths.

I well remember when deer were more plentiful than rabbits are now. I have killed three deer a day and have seen 30 in a gang; could kill one or two any time in an hour or two.

Hogs were plentiful and there were lots of acorns and chestnuts for them to stay fat on all the year.

I have been a farmer all my life and have had lots of hogs and some cattle all the time and find I can make plenty of feed stuff.

I was married in 1858 and raised 6 children and have about 35 grand children and quite a host of great grand children. I always have been a believer in the commandment of the Bible

that said to "multiply and replenish the earth."

I have always enjoyed good health except for the past four months.

I can well remember when this was Rhea county and when Crossville was only a cross roads, with Mr. Scott as its only resident.

I remember before there was a Rockwood and when my nearest county seat was Washington, Rhea county. I guess it was 30 or 35 miles away.

Yours respectfully,

Robert Manning.

SHAKE, BROTHER.

A Kentucky country editor wrote to a catalogue house for some advertising. They replied that they would be glad to use his space but would like to know what territory his paper covered, whereupon he told them: "This paper goes from New York to San Francisco, from Canada to the Gulf, and it keeps me working until 2 o'clock in the morning to keep it from going to hell."—Falmouth (Indiana) Outlook.
